Web design and development, end to end - from identity to deployment. I build distinctive sites across e-commerce, editorial portfolios, and independent products, with a creative-coding edge (WebGL, generative visuals). I use AI-assisted workflows to prototype fast while keeping design, architecture, and the final build under my control.

EXPERIENCE

Freelance Web Developer & Designer 2023 - Present
Independent · Lima (Remote)

Websites built end to end for a range of clients - brand, design, code, and deployment, plus the infrastructure behind them (DNS, SSL, hosting, technical SEO).

Freelance Graphic Designer 2020 - 2023
Independent · Lima

Print materials for a medical-sector company; event flyers for Lima's electronic-music scene; brand identities for small businesses.

Community Manager 2021 - 2023
T&IL Cleaning Services · USA (Remote)

Content, social, and video for a US brand - improved audience retention and streamlined content workflows.
